

LINEN BEDDING BY LINO TAKAS

CLASSIC COLORED BEDDING

Linen fabric is a real magic for bedding due to its natural qualities: excellent thermoregulation, anti-bacterial qualities, durability and easiness in care. It gives your body the indescribable feeling of luxury and quality rest while its texture provides relaxation. Linen is one of the fabrics that still stay natural, and is produced without adding chemicals.

Standard top sheet

Striped beige linen bedding

Beige and natural linen bedding set with awning stripe pattern. Bedding is made from stonewashed Lithuanian linen. Perfect if you love natural linen, with rustic feel.

Blueberry print

Rich burgundy bedding sets made from middle weight highest quality European Linen. The effect of „Blueberry“ leaves is created by rotary printing. Although we use printing, finished fabric still has a natural feel that is so soft you can't feel the image at all. Our printing method dyes the image into the fabric, in an Eco-Friendly process that not dye while washing, peel or crack.

P13 Burgundy

Japanese flower print

These printed linen fabrics are real pleasure to touch. They are very soft and becomes softer with every wash. Special printing technology, corresponding to Oeko-Tex standards, ensures suitability for children.

The bedding sets can be used on both sides. Two color options: natural or printed white. Pillowcases fastened with an envelope closure. Duvet cover ends up with buttons, ribbons or zipper.
